ABOUT THE COMMUNITY FOUNDATION FOR GREATER ATLANTA

Since 1951, the Community Foundation for Greater Atlanta has been connecting donors, nonprofits and community leaders to strengthen the 23-county Atlanta region through philanthropy. As a top 20 community foundation of approximately 750 nationally, with approximately \$1.1 billion in current assets, Georgia's second largest foundation exists to connect the passions of donors with the purposes nonprofits strive to improve. Through its quality services and innovative leadership on community issues, the Foundation received more than \$144 million from donors in 2017 (unaudited) and distributed more than \$97 million that same year to support nonprofits throughout the region and beyond. For more information, visit: cfgreateratlanta.org or connect with the Foundation via [Facebook](#) and [Twitter](#).

At the Community Foundation, we believe in the power and potential of individuals and organizations to change communities, whether those communities are physical neighborhoods, a group of individuals with a common interest or a cohort of organizations focused on similar issues. We play a variety of roles, but our key goal is to be the connecting point for the various partners, nonprofit organizations and community leaders working together toward the common vision of stronger greater Atlanta region.

IMPACT AREAS

The Community Foundation for Greater Atlanta fulfills the passions of donors by investing in our region through grantmaking, partnerships and advocacy. To create meaningful, lasting change, our efforts align via measurable objectives through focused "Impact Areas." We practice what we preach – evolving beyond grantmaking strategies and industry jargon to real, tangible impact.

These five impact areas are our promise to the 23-county region - that in partnership with our donors, nonprofits and collaborators, we vow to make Atlanta a better place for all residents to live and thrive.

Arts

Community Development

Education

Nonprofit Effectiveness

Well-being

Arts >> Build a dynamic arts ecology to ensure all residents in our region will have access to high quality cultural experiences and diverse artistic programs.

Community Development >> Ensure that our region produces equitable economic growth, strong civic health and safe communities.

Education >> Improve outcomes and expand opportunities for all learners across the education spectrum, from early learning through post-secondary and workforce preparation.

Nonprofit Effectiveness >> Invest in the region's nonprofits with the tools and financial resources to effectively manage operations and high-performing programs.

Well-being >> Ensure a healthy, safe and engaged region, where residents have access to health care and nutritious food.

All of these impact areas are complex and multi-dimensional and require cross sector, regional collaboration: these are problems with solutions that cannot be achieved by any one entity. The Foundation has an extensive base of knowledge and relationships across the region, spanning diverse communities, populations and issues, making us uniquely poised to serve as a hub for impact.

THE NEIGHBORHOOD FUND

Creating change in a community requires the passion and leadership of the residents who live in that community. The Neighborhood Fund seeks to empower metro Atlanta residents who aim to positively impact their immediate neighborhood and community. The Neighborhood Fund is committed to supporting grassroots leaders driving social change through the provision of financial and coaching support. We provide resources to community groups (including non-501(c)3 entities) within the 23-county region seeking to impact community at the local level.

Since 1991, we have provided an estimated \$3.2 million in grants and training to nearly 700 neighborhood projects. Residents have been awarded grants that support civic activism, generate new cultural events, organize community members towards a common goal, create welcoming greenspaces, build new opportunities for kids in the neighborhood, improve community safety, and much more.

The Neighborhood Fund's approach to grantmaking is to support the development of neighborhood leadership. We strive to bridge the gap between planning, implementation and longer-term community action. This includes a deliberate connection between the process of building a strong community and the results the community envisions.

Neighborhood Fund grants are diverse and flexible, but highly competitive.

The Neighborhood Fund offers two types of grants:
